Your Prosperity Report 3
Your Prosperity Report

This report is about how you can increase your financial prosperity.

We were all created by God, and God is infinitely prosperous. We were all created in the image of God and we are, therefore, intended to be prosperous. In fact, if we are not prosperous, it just means that there is a block standing in the way of our prosperity, because prosperity is our natural state.

Astrology is an excellent tool for removing any blocks we may have to prosperity and discovering who we really are, so that we can realize our full potential of being prosperous.

There have been several well-known writers who have described how to become prosperous and how to overcome blocks to prosperity. They include Leonard Orr, Louise Hay, Dr. Wayne Dyer, Dr. Joseph Murphy, Norvell and others, and they all advocate positive thinking. They provide general advice, and it is all good, but it is not as individualized as astrology.

Because we are individuals, we each have our own vision of what it means to be prosperous, what to do with our money if we are prosperous, and what makes us want to be prosperous. We also differ as to what blocks may be standing in the way of our attaining wealth and what might make us still not feel happy if we did. That is why advice based on your own unique, astrological chart is the best way to connect you, as an individual, with the ideals of the positive thinking experts and to guide you as to how you, personally, can obtain wealth and be happy with it.

The central idea the positive thinking experts teach is that thought is creative, and that what thoughts you think ultimately determine your creation of wealth. When your rational mind is relaxed, your thoughts go into your subconscious mind and affect the way you feel and behave and
impact others, even though you might not be consciously aware of it. Therefore, if you can relax your conscious mind and introduce positive thoughts about creating prosperity, these new thoughts will replace whatever other thoughts might already be in your subconscious mind. You will then, after whatever repetition of the new thoughts is necessary, feel, behave, and impact others in accordance with your new, positive, prosperous thoughts. This, in turn, will attract prosperity to you. That is because of the law of action and reaction (also called "the law of karma" and referred to in the biblical quotation of "As ye sow, so shall ye reap.") You are now putting out thoughts of prosperity, as these have become manifested in your subconscious and your actions, and now only prosperity can come back to you. The thoughts you choose to think determine your prosperity. That is the teaching.

If you put together this general knowledge of how you can choose your thoughts and create what you want through your subconscious mind with a knowledge of who you are as a unique individual, you have the best possible combination for creating wealth and having a good experience with it. For example, some people need to introduce a lot of positive thoughts to offset an ongoing negative state of mind, whereas some others, of a happy disposition, may manifest wealth quite readily at the very suggestion of it, but then not have the stability to handle it. The approach taken in this report is to identify your individual needs and temperament and then to suggest ways of creating prosperity which will work out best for you.

Chapter 1: The Sun

Your sun sign shows how you radiate warmth, light, love and energy. If you give out all this goodness, you cannot help but receive prosperity in return. Money is really energy, and it has been said that wealth goes to wealth. The more that you radiate your true energy as to who you really are, the more others will respond to your leadership, your self-confidence, and your positive inspiration. Your confidence in yourself gives you the innate belief that you are deserving of money. You then act as if it is natural for others to give you money; they follow the leadership of your divine inner light. You are one with the Infinite Light within you, and therefore have infinite potential to create
Discover where your heart is - what you most love to do for a living - and your inner power will shine through. Do not just do what others expect of you or what will please them; it is your own birthright to shine and to be happy. When you are happy, you give the most to others and to the world - and you receive the most wealth in return.

Sun in Aries:

Aries is a fire sign. It harmonizes well with the life-giving qualities of the Sun. It is like the fire which rushes through the forest so fast that the trees are barely singed. The heat of the fire opens up the dormant pine cones, so that their seeds can be released and the life of new trees can begin. Beautiful fireweed flowers also spring up where the fire has been.

Similarly, if you are convincing someone to try your product or service, you are lighting the candle of their inner flame. You are bringing them to life so that they will awaken to the positive benefits of what you have to offer. Of course, sell only things which you believe in yourself for your own enthusiasm to come through. The more that you are promoting what you most believe in, the more prosperous you will be.

Sun in 5th house:

You attract prosperity by being a leader in bringing sunshine into other people's lives. You may do this by being an entertainer, musician, actor, camp director, day care supervisor or resort owner.
Because you make others happy, through your generosity and positive inspiration, others are happy to look up to you and reward you financially.

Chapter 2: The Moon

Your Moon position is very important because it represents your subconscious mind and your receptivity to new beliefs about how you can attain prosperity.

As your moon governs your feelings and emotional responses, the more you nurture yourself and create happy feelings, the more receptive you will be to thoughts about prosperity. So, neutralize any negative thought or feeling which comes up by first acknowledging it and identifying it and then affirming the opposite. For example, if you feel depressed because you do not believe you can make enough money, you can affirm "I am joyous and receptive to prosperity." At first, you might find the new belief hard to accept, but keep affirming and you will come to believe it. You created the negative thought, whether consciously or not, so now you can create a new positive thought to replace it. Own your own ability to transform your thoughts and the feelings they give rise to. Choose the positive and prosperity.

Protect your positive beliefs and feelings. Nurture them. Associate with people who believe in you. Avoid negative people. Picture yourself being prosperous and build on that image. What you nurture will grow.

Moon in Pisces:
Your approach to wealth involves passive receptivity rather than self-assertion. You are very psychic, and know exactly what to say to someone to make them want to give you money. You may flatter them or entertain them; perhaps you will appeal to their sympathy. In turn, you are very compassionate at helping those in need. You would rather lend your creative talent to a charitable cause than work in a structured job, but you receive enough money just the same, because of the good karma you create.

Moon in 5th house:

You would be tuned in to the daily fluctuations of the stock market. However, rather than buy or sell based on emotions and impulse, look also at long-term performances and trends. You seek to create an atmosphere of lavishness in your home environment, and you could show off the fine art and architecture to those whom you entertain. You like to be among well-known people, and they may well show you the way to financial success. You would enjoy gambling and have good luck, but never gamble more than you can afford to lose.

Chapter 3: Mercury

Mercury has to do with how you use your mind and how you communicate. The more you develop your mind and learn about different subjects, the more versatile you are and the more ways you have of becoming prosperous.

Mercury also rules anything which works like the mind, such as computers. Computers can facilitate your studies and your communication with others. Because computers were invented by the
human mind, they give us insight into how our own mind works. We can use our minds to figure out ways in which computers can increase our prosperity.

Communication can lead to prosperity, whether it involves staying where you are and sending a message or actually traveling to another location to deliver it. Mercury represents the messenger - the ways in which one mind can communicate with another. The sharing of objective information leads to many opportunities for prosperity.

Mercury in Aries:

You are quick in both your mind and actions, and if you hear of a financial opportunity, you could be there ahead of everyone else to take advantage of it. You have skill at debating and could find prosperity in a field such as law or teaching languages. You would also excel as a dispatcher, cashier, or delivery person.

Mercury in 6th house:

You have an excellent mind for detail and you may be successful in the health or nutrition field, where many precise facts need to be remembered. You are concerned about cleanliness and could work as a cleaner or perhaps as a public health worker or environmental worker concerned with clean air and clean drinking water. Your pattern of thought for acquiring prosperity is that it is received in return for being of practical service to others.

Mercury Conjunct Jupiter:
Your key to prosperity is to get a good education for your superior mind. You are an excellent speaker and could become a university lecturer, minister, or motivational speaker. You would enjoy travel and if you could combine that with your work, it would be ideal. You would have good success with prosperity affirmations and you could find prayer very helpful.

*Mercury Opposition Neptune:*

To acquire prosperity, you need to find a higher level of unity between imagination and your logical thought processes. Otherwise, your logical thought may become clouded by imagined influences or your imagination may be blocked by your critical faculty. Know that you can succeed by balancing your imagination with the manifestation of what you desire. This is like the artist who visualizes something to paint, paints a little bit of it, stops to imagine it again, and so on.

*Mercury Trine Pluto:*

You have an innate understanding of how prosperity can be created by having faith in the deeper capacity of the mind. You are, therefore, inspired to use your willpower to think positive thoughts. You then communicate in a pleasant way which brings success to you. You have talent as a writer, researcher, investigator or scientist.

**Chapter 4: Venus**

Venus rules the ways in which you relate to others and to the environment around you. It rules
how you cooperate with others to make money and what attitudes you have about money and possessions.

Venus rules the sign of Libra, which relates to harmony and balance. Within yourself, you can best create prosperity if your male and female energies are balanced - that is, if you both affirm positive thoughts about money and receive them into your subconscious. You will then interact with others in such a way as to inspire them to aid your prosperity and be receptive to the prosperity they will create for you and ultimately with you, as you both move forward together and share your growing wealth and happiness.

Venus also rules the earth sign of Taurus, which has to do with actual tangible wealth. As you work and create actual, tangible things in your environment, you will receive, in return, actual, tangible money and possessions. If you feel secure within, and affirm that you own enough money and possessions to be secure, you will create this reality and keep building more security for a happy and prosperous future.

Venus in Pisces:

The place to invest which you would enjoy most would be in something connected with creativity, such as art, music and dance. You would rather see your money go towards support for others than towards anything which is just about profit. Still, you are favored to make a good profit from your creative output. You could also make good money from anything having to do with fish, boats, or the sea. You have an excellent psychic, intuitive sense of when best to invest.

Venus in 4th house:

Your best place to make money is in your home. You could either do the traditional work of
caring for children and supporting your spouse's work, or you could work at a profession at home, such as a computer career. You could turn your cooking or gardening talents into a career, or you could get into farming. There is also money to be made by investing in real estate, coins, silver, jewelry, or antiques.

Venus Trine Uranus:

You would have good luck in lotteries and contests, and you would be in tune with the fact that these gifts come to you to help you fulfill your higher, spiritual mission. You would have a talent for plotting out with astrology when your lucky times are, for yourself or for your clients. You see beyond money and yet you are in tune with it. You could enhance your chances of winning by combining higher meditations with grounding exercises.

Venus Trine Asc.:

Your wonderful ability to convey an appreciation of beauty and harmony to others could lead to a successful career in music or art. Your marriage is likely to be happy, and you would cooperate well with your partner to create mutual prosperity. You are likely to meet and favorably impress people who are in the position to help you advance in your career. Your investments are destined to be successful, in keeping with your positive attitude about money.

Chapter 5: Mars
Mars gives you the energy and get-up-and-go to achieve prosperity goals. Mars gives you the physical strength and well-being to carry out your work with enthusiasm. It provides you with the initiative to start new ventures and the momentum to forge ahead in spite of obstacles.

Mars lift you out of the past and into the present. How can you achieve prosperity now? Where can you apply your initiative and become more independent? What kind of new venture would you like to start?

Mars gives you self-confidence. If you believe in yourself, you can create prosperity. You can promote yourself and your products with ease. You can convince the buyers that they, too, will feel good about themselves if they buy your products.

Mars in Scorpio:

You are very positive and courageous in being able to turn your finances around and go from debt to riches. You have a natural understanding of financial strategies and investments, and you are aggressive about making other people's money work for you. Make sure that you use this ability in a positive, wise way, so as to attract only positive karma in return. You would be able to make money dealing with topics which others would lack the courage to touch, such as wills, taxes, insurance claims, or detective work.

Mars in 1st house:

As the First House is ruled by Mars, your competitive urge is very strong. You have an abundance of physical energy and strength, and the work you can do will bring you financial reward. You might become a successful athlete. You set the goal for yourself of being the winner, and then you strive towards it, being unwilling to settle for anything less. In money investments, make sure
that you assess the risks first, rather than just rush into something.

*Mars Square Pluto:*

This is an indicator of very unusual energy, willpower and intensity. It is very important that you set positive, broad-scoped, prosperity goals and work to achieve them. You have tremendous potential to accomplish more great good than most people, and to receive more rewards in return; it is essential to your life's purpose that you take the high road rather than the low road. Find an intensely positive direction for your willpower, and proceed along that path to become very fulfilled.

**Chapter 6: Jupiter**

Jupiter is a very large planet, and it rules growth and expansion. You can grow in your prosperity by expanding your mind to see the many possibilities which are available to you. You can travel and see new ways of making money or expanding your business to other places. You can hire people to work for you and thereby multiply your efforts and your profits.

It is through Jupiter that you are connected to your higher inspiration and your source of faith that you will be prosperous. Jupiter's energy is benevolent, optimistic and generous. If you give freely to others, in the faith that the source of prosperity is infinite, you create goodwill. You create a win-win situation where everyone involved will give to one another, and everyone will benefit. This is how a prosperous economy is created: If everyone keeps spending in the belief of a positive outcome, that outcome will be created.
If you put together Jupiter's ability to believe that new, positive goals can be achieved with Saturn's self-discipline to carry them out, you can actually manifest a huge amount of wealth.

\textit{Jupiter in Aries:}

You are inspired to start new business endeavors. You are likely to succeed in spite of any adverse economic conditions or other obstacles because your awareness is on a high spiritual plane, far above physical circumstances. The positive thoughts in your mind create prosperity around you and that is your reality. Prosperity is intended to happen under any conditions. Each moment is a new moment and a new opportunity. Wealth comes easily to you, so make sure that you spend responsibly.

\textit{Jupiter in 6th house:}

You understand that health is wealth. You take excellent care of your health and have an abundance of energy. In fact, you could make a good living helping other people to keep healthy. You would teach them that positive thinking is half the battle. Your ability to study and get a good education will put you in a better financial position. You are likely to profit well from careful, low-risk investments.

\textit{Jupiter Opposition Neptune:}

Because of your vivid imagination and lack of practicality, you are advised to avoid gambling, speculation, or get-rich-quick schemes. Have someone else take care of your bookkeeping, preferably a Virgo. Avoid indulgence in alcohol and drugs, as this could leave you poor. If you apply conscious self-discipline, you could make money in the creative arts such as music, art, dance or
writing. You are generous to those in need - and this is good karma, but make sure that they are really in need and not just self-indulgent or deceptive.

*Jupiter Trine Pluto:*

This is a very powerful and favorable aspect for acquiring a huge amount of money and finding happiness with it. That is because you are above the plane of being attached to money and you are instead very much in tune with your higher life mission of making the world a better place. You will transform the lives of many by teaching them how positive, spiritual beliefs can uplift them from poverty and make them prosperous. You could invest in economic programs abroad, charitable foundations, publishing, or exporting.

**Chapter 7: Saturn**

Saturn rules the setting of goals and the work to achieve them. In order to get ahead, it is all well and fine to have dreams, visions of possibilities, and enthusiasm, but what is also needed is the discipline and focus to choose the best, most practical possibilities and then put in the necessary labor to achieve them. If you have first explored many options, with your Jupiter, Saturn will give you the wisdom of discernment - the ability to decide from your vast, accumulated knowledge of what will work and what will not.

Provided that you have already explored your visions and dreams thoroughly, your choice of action will be one upon which you will embark with enthusiasm and inner calmness. The work which you will do to carry out your chosen aims will not really seem like work, because it will be what you have already decided, beyond any doubt, is the thing which you most want to do. You will
be able to handle, with ease, the responsibilities connected with it.

Saturn then, rules the actual manifestation of goals and the actual wealth, honor, and recognition.

_Saturn in Libra:_

Once you have worked out what your own goals are, you will accomplish them best with a partner. At this stage, a partner will be an asset, rather that someone to hold you back from discovering your own goals. You are now capable of a mature, responsible, lasting relationship that can bring you happiness and prosperity. Choose your partner carefully and make sure that goals inter-mesh.

_Saturn in 11th house:_

You successfully build a whole network of clients, colleagues and acquaintances who, in turn, help you get ahead in your profession. You could organize groups of people interested in prosperity consciousness and cooperative means of saving money and/or not having to earn as much. You bring practicality and actual manifestation to the highest of ideals, hopes and wishes. That is because you are well grounded at the same time as being inspired.

_Saturn Square Uranus:_

Your talent lies in your ability to take direct action to make the most of established knowledge for brand-new applications. You would be a valuable inventor or idea person for a company seeking new ways to present products so that people will buy them. You are particularly gifted at figuring
out easy ways to move heavy objects, because you use brains rather than brawn, and you could find a new way to use leverage or electricity. You might design a better airplane, for example.

Chapter 8: Uranus

Uranus rules freedom, and the freedom which prosperity can bring.

Uranus rules your higher mind, in which your thoughts, hopes, and wishes can be infinitely free. It rules your highest ideals, which prosperity can enable you to attain.

Because your higher mind is the source of your sudden flashes of intuition, Uranus is associated with sudden changes in your prosperity, for better or for worse. If your thoughts have been genuinely free, as in the meditative state, you can suddenly win prizes or attract prosperous offers, seemingly out of nowhere. If your thoughts have been too controlled, you are likely to lose money suddenly, as an expression of Uranus trying to tell you to break free from your oppressive circumstances. You then need to affirm your right to freedom of thought to attract prosperity. Affirm that Divine Light flows through you, so that the ideals in your higher consciousness will come down into your everyday life.

Be inventive. Use group energy to create synergy - individuals working together to free themselves and claim their divine right to be prosperous.

Uranus in Cancer:
You were born into a generation of people who experimented with ways of bringing economic efficiency into their housing expenses. They came up with such ideas as communes, co-ops, and condominiums. The idea was that if certain costs were shared, each individual would pay less. Different methods of child-raising were explored, such as day care, which radically changed the economy by enabling your mother to go out to work.

Uranus in 9th house:

You could prosper greatly from travel and the freedom it offers. You are a master of how to use your higher mind to see that your natural state is prosperity. You elevate others up to your high level of awareness and receive good karma in return. You could make a living as a yoga teacher, astrologer, or innovative philosopher. You easily rise above everyday circumstances to see that it is your conscious, positive thoughts which will bring about healing.

Uranus Trine Asc.:

This aspect is very favorable for bringing higher intuition and spirituality into a career. You could be a very successful astrologer. You could come up with brand new ways for individual and society to become more prosperous, perhaps through group meditations. Your intuition will lead you to become very prosperous yourself, probably suddenly. Your large network of friends and acquaintances will be a very helpful resource for your career success.
Chapter 9: Neptune

The energy of Neptune is very subtle and beyond the realm of attachment to money. In fact, Neptune rules Pisces, the sign of the fish, and its influence is just to make money flow in and out of your life without paying conscious attention to it, just as the water flows along where a fish lives.

The influence of Neptune has to do with sharing with the less fortunate in a compassionate way, in order to keep the flow of money going. If money flows into your life, it needs to keep going and keep the subtler, karmic cycle going. If you share with others in their time of need, you will be provided for by others in the future.

Some individuals choose consciously to renounce their money and possessions in favor of living a more spiritual life. They find happiness and fulfillment in values which are above and beyond the material plane. Some access that higher plane and come back with creative inspiration for their artistic endeavors or channeled insights from higher, spiritual beings which can assist others.

Neptune in Libra:

You were born at a time when there was movement to achieve equal rights for the poor, and to treat them as equal partners. The ideals of love and compassion predominated and, even when there was not a lot of money, there was enough sharing and kindness that everyone had enough.

Neptune in 12th house:

You are very compassionate in helping those in need, and you are likely to work quietly and
selflessly on behalf of the poor and the sick. You may be employed to work in a hospital or other institution. Because of the good karma you create, you would be helped yourself if you are ever in need. Your idea of prosperity could well be to have a quiet home by the sea, perhaps where you could paint or meditate.

*Neptune Sextile Pluto:*

This aspect has to do with the age in which you were born, rather than with your prosperity as an individual. Most people alive today have this aspect in their natal chart. Economically, it is a relatively fortunate age, in which peace and financial security ultimately prevail. There are major challenges and danger to overcome, but ample opportunity for compassion and regenerative willpower to win out and solve these problems.

*Neptune Conjunct Part of Fortune:*

Your great joy comes from being able to use your imagination to envision a happy, higher state of consciousness. You can channel in mystical insights from the higher realms and use psychic ability to heal others, even if they are many miles away. You can creatively visualize a more prosperous state for yourself and others. You gain fulfillment by sharing your visions and uplifting the spiritual awareness of others in a creative way.

Chapter 10: Pluto
The contribution of Pluto - the outermost planet - to our prosperity is to help us realize that the most extreme transformations imaginable are possible. For example, if you have lost money, it is equally possible that you can gain money, and even more than you had before.

Because prosperity is first created in the thoughts we choose to think and then in the manifested, physical, outer world, it stands to reason that the more deeply and intensely we think our thoughts of prosperity, the more prosperous we will become. Pluto gives us that willpower to reach the deepest, core beliefs which we have in our unconscious mind. Once we identify and transform our core beliefs, huge, far-reaching changes will occur in our prosperity and our happiness.

Pluto also rules the economy on a mass scale. We are influenced by the overall world trends and we, in turn, have an influence on them. If we use our willpower to rise above mass consciousness, we can still be prosperous in any economy, because we ultimately create our own reality.

**Pluto in Leo:**

You were born in an age when much of the economy was centered around games and toys for growing children. The emphasis for adults, too, was on recreation. Activities such as camping and going to summer resorts were popular. Construction of schools was a major economic activity, because of the large number of children of school age. On the international level, there was the development of super-powers and the need to harmonize their theories of economics.

**Pluto in 10th house:**

You have tremendous potential for success in reaching the top of a large organization, such as a company, the military, or government. That is because you innately understand that, in order to succeed, you have to work long and hard and overcome all obstacles. You possess strong willpower,
honesty, and reliability in a crisis. You would be good at taking over a company and turning it around so that it will make a profit. Always deal with honest people and build a good reputation.

Chapter 11: The Ascendant

Your Ascendant represents your own self-expression. Once you have combined your positive, conscious thoughts for prosperity with the absorption of these thoughts by the subconscious mind, your new, outward expression shows the world how ready you are to acquire prosperity.

Traditionally, your Ascendant indicates your career; the area of life where you are best prepared, and best talented, to offer your work to others in exchange for money. On the higher level, your Ascendant represents your mission in life, your outward path towards making the world a better place. In return for doing this, you receive prosperity. In your own, self-expressive mission, you are going beyond the expectations of what others think you should be doing to achieve your own, higher goals.

Your Ascendant is your outward personality, the impression which others first have of you and what they most immediately respond to. Sometimes first impressions are the basis of whether others are willing to do business with you. However, remember that your Ascendant has the input of your conscious and subconscious mind. Therefore, others are really responding to your deeper thoughts and affirmations as well.

Ascendant in Scorpio:
It is because of your innate courage and willpower that you will become prosperous. For example, you have the courage to deal with financial matters which other people tend to shy away from, such as wills, taxes, insurance, and investments. By helping others handle these matters, you create good karma, and for this you are rewarded financially. You are capable of understanding complex, corporate strategies and making sure that other peoples' money is handled properly. You may profit by investing in mining or salvaging.

Chapter 12: The Part of Fortune

Your Part of Fortune is a special, astrological indicator of your prosperity potential. It is shown in your chart by a circle with an "X" in it. It represents a position calculated from your Sun, Moon and Ascendant, rather than being an actual planet in the sky. It is a symbolic representation of where the energies of your Sun, Moon, and Ascendant best work together for your prosperity and well being. Your Part of Fortune is one of several of what are called Arabian Parts, from Arabian astrology, which pertain to different aspects of your life, including your prosperity.

Your Part of Fortune has a connotation something like that of Jupiter, but it goes beyond Jupiter. It represents prosperity, wealth, optimism, benevolence and good fortune like Jupiter. However, it also represents your awareness within and how you focus it on prosperity. The Sun, Moon, and Rising Sign (Ascendant) were already there, outside of you, when you were born. However, it is through your own conscious willpower, having command over your subconscious beliefs, and expressing these new, positive beliefs, that you achieve prosperity. It is in your overall, individual aura that your prosperity potential is expressed and this is represented by your Part of Fortune.

Part of Fortune in Libra:
Your joy and prosperity come from your realization that infinite harmony has already been achieved. You and everyone else were all created equal by God and your relationship with each other person is a joyous reaching out of your hearts to share in the celebration of harmony and peace. Because you already know this peace within, there is no need to impose your will on others; that would only upset the balance which is already there. Instead, you are free to enjoy the infinite prosperity of love and peace.

**Part of Fortune in 12th house:**

Your source of real joy and prosperity is deep within. You can discover it by escaping from the everyday world and meditating on your oneness with God. It is when you perceive within, the flow of your individual awareness with universal consciousness, that you discover complete bliss. When you have tuned in to this state of inner knowing, you are able to come back into the everyday world and uplift the consciousness of others with expressions of your creative imagination, which give them glimpses of the blissful state.
